FOREWORD

¶ To the occasional reader, this volume will portray many of the joys, much of the happiness, and a few of the sorrows of life which are experienced at an educational institution of learning. : : : : :

¶ To the class of 1925, may it ever be a true standard of the ideals and traditions of Susquehanna, ever reminding them of the true and lasting friendships formed by association with one another while on the campus of dear old S. U.

DEDICATION

¶ To the benefactors and loyal friends of Susquehanna who have helped to build up the institution we, the class of nineteen hundred and twenty-five, dedicate this volume of the *Lanthorn* in recognition of their services rendered to our dear beloved Alma Mater.

“Whose beauty doth linger.”

“Study and learning doth make men of all.”

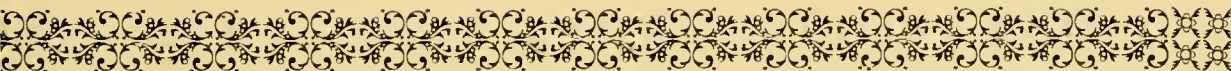

“Greatness of body as well as of mind is not to be despised.”

*“Where Knowledge walks the blossoms rise,
The earth gives up its richest prize,
And man, set free from chains that bind,
Proclaims the brotherhood of Mind.”*

*“And ’neath that pure and steady ray
The nations keep their upward way,
And with the power the light doth give,
They live to learn and learn to live.”*

“Man’s being doth require science.”

“Great men have slept within these noble walls.”

"All things should be administered carefully and nobly."

"Music hath charms to soothe the weary soul."

Senior Class Prophecy

GEARS have passed, here I sit in an easy chair with pipe and book, while about me in the garden are all the sweet sounds of Spring enticing my memory with reminiscences of the Campus which holds for me dear thoughts of happy days.

Last week I saw "Rox" in a city hotel, he is playing ball. We talked of old friends, for he had seen many. Glenn Fisher is playing in a large theatre orchestra. And "Carpy"? Doing fine as a corporation lawyer. Miss Yeingst, whose classroom brilliancy we all recognized, is representing her sex in the courts of justice.

One morning I rode to the town in which I knew that Klinedinst was teaching. Married to a pretty girl, he lives and aspires, and he told me much of the members of the class of '24; how Lesher is giving words of faith and hope to his congregation in Baltimore, how "Kep" and Lottie live happily among their flock at McLean, N. Y., and, too, how "Johnnie" Derr is serving in a great way just outside of Easton. Kindig and Shuman are teaching, as also are Misses Littlely and Swab, while "Reichy" has indeed achieved a career as a novelist.

After a delightful visit I went farther west, stopping at Chicago, and whom do you suppose that I saw at the Union Station? None other than Alma McCollough, who, as editor of a woman's magazine, has as her associates Ruth Bond and Grace Barnett. While talking with Alma I learned that this western metropolis shelters many of '24's illustrious members; "Coonsie" as superintendent of the city schools, "Andy" Beahm with the Chicago Symphony, and Slaybaugh in the wholesale grocery business. Misses Heilman, Witmer, and VanDyke have a fashionable modiste shop near "the loop," while Miss Bloom has attained much prestige as the organist in one of the largest theatres.

Returning home I boarded the train and picked up a paper in which I saw that "Dubby" had performed a very difficult operation which has proved to be a revelation to Science. While rejoicing at this I glanced up to see "Miggs" before me. He was just returning from "Frisco," where he is carrying on a large importing business. Of course we had a delightful time talking of associations formed while at old S. U. "Bill" and "Peg" along with "Joe" and Mabel are instructing Filipinos. Lucy is a great help to a very successful minister in New York City. Miss Young is head of an exclusive girls' school along the Hudson. Harvey is doing his bit in Central Africa. "Longy" is president of the N. Y., N. H. and H. R. R., and Miss Huyett is secretary of the Young Women's Christian Association of Greater New York. "Miggs" was simply full of news and told me that Hilda is just entering the precincts of stardom at Hollywood and lives in a girls' club in company with Misses Brubaker, Potteiger, and the jolly Rearick sisters.

We stopped at Youngstown, Ohio. There we saw "Red" Diemer in the white vesture of company physician of that division of the Pennsylvania. At this point we changed crews, and whom do you suppose walked in dressed in the uniform of a Pullman conductor? None other than Dreese. Soon we rolled into the city and I took leave of Bruce and "Miggs" with many a hearty handshake.

And, now, here again I sit, tired with travel, but highly elated at having heard of those worthy classmates of '24 who helped to make my college days more delightful. I try to arouse myself but seem chained with clinging thoughts, sad yet pleasant; sad that those days of comradeship are gone, never to return; yet pleasant that so many of those cherished ones have achieved, made for themselves a place in the world, reflecting much credit upon their beloved Alma Mater.

IT IS not only in varsity competition that the members of the Junior Class stand out, as the Class of '25 has also compiled an enviable record in class athletics. Since the beginning of college in the fall of 1921 the present Juniors have been actively engaged in all branches of athletics, endeavoring to bring honor both to the class and to Susquehanna. The accomplishments as a Freshman Class were good, as the class took second place in both the boys' and girls' basketball leagues. The girls were winners of the baseball and tennis trophies while the boys won the tennis trophy, finished in a tie with the Seniors for first honors in baseball, and in addition they captured the beautiful Schock relay trophy.

When the Sophomore year began the fellows organized a football team to meet the Freshmen. Although the under-classmen managed to hold the Sophomores to a 6-6 score, the upper-class team outplayed them in every conceivable manner. Much credit for the fine showing which the football team made must be given to "Bill" Bowser, a member of the class of '25, who successfully coached the team and lead them on the field.

The girls proved to be too strong for all opponents in soccer and in field hockey, with the result that they had no trouble in coming out ahead. Sara Seal proved to be a great hockey leader and deserves much credit for guiding the team to victory. The '25 boys were also triumphant in soccer. After a great basketball season, the girls won possession of another cup while the boys again wound up the season in

second place. Both of the tennis teams retained their honors won during the previous year. In track the class of '25 swept everything before it and had no trouble in winning all the trophies. It must be added that the track relay team has won every race in which it has taken part, and the class is confident that the team will remain undefeated throughout its entire college career. The baseball team, although losing some valuable members of the preceding year, managed to clinch second place in the league standing. The class of '25 proved to be an exceptional Sophomore class in that the Freshmen were unable to defeat it in any branch of sport. The Freshman basketball team would have won the class trophy if they would have beaten the Sophomores, but they were swamped by a 20-10 score, not being allowed a single point in the first half.

Now as Juniors the class of '25 is continuing its great record of the past two years. The girls have lost none of their ability and are continuing to win many victories. The present Junior basketball team scored one of the most brilliant victories when she defeated the Sophomore team in a heated struggle by the score of 19-18 in a game which was not decided until an extra five minute period had been played. The class expects to retain its laurels in track and tennis.

To name any few individuals of the class as the leaders in the various sports would be a very difficult task, since almost every class member has featured in one branch of activity or in another. All are striving to live true to the class motto, "Deeds not Words."

"Bob"

This young man whose fair countenance we behold, hails from the wilds of Union County, in a little town situated along the banks of Penn's Creek—known to us as Millmont.

Foremost among the by-products of the box factories of this little "burg" comes Adams, a living exponent of manhood, truth, constancy and beauties of mind and body. Floyd came to Susquehanna in '22 as a Freshman, but having attended Summer School for two years and with the aid of his "Better Half" he has been able to attain the position of a Junior.

As a student, he does well in his classes as long as he stays awake, but oftentimes when the instructor calls on him there is no response, as Floyd is fast asleep. Music is his by-product. In athletics he takes a very active part, especially in track, being one of the fastest men, and therefore has made a varsity standing.

Here's a local lad who was born to the atmosphere of the University. "Sammy" entered college from the Academy and ranks very high as a student. His progress has been steady and proficient, being a professor's son, this is only natural.

This young man, though small and light, has the liteness of a cat and the heart of a lion. "Sammy" proved his worth as an athlete in the Sophomore-Freshman football game of last year and by his splendid generalship and tackling enabled the team to hold its own.

Though modest and of an unassuming nature this youth who only a short time ago discarded the knee trousers of childhood has suddenly come into his own. "Sammy" has at last scented the fragrance and beauty of the opposite sex and it would surprise no one if in the near future he would add a few hours to his curriculum by taking a new subject known as campusry.

A warm smile and a happy countenance have won for him a host of friends.

Many famous men have dwelt upon our campus in other days; but not one of them ever secured a firmer hold in the hearts of his classmates than the man whom you see before you. It would take volumes to tell of all his fine qualities, so we will merely dwell upon some of his accomplishments.

In all class activities we can count on Harley to lend a helping hand. His class work is good; but his interest does not cease there, as he is one of our football heroes. Previous to this season, his experience was limited, since he suffered a fractured collarbone at the beginning of his Sophomore year. However, this year he came back with a vengeance, and is now the wearer of the varsity Football "S."

Of late years Cupid seems to have formed the habit of aiming some of his deadly arrows at Harley. This is surprising to most of us who recognize in him a slight tinge of shyness.

When gazing upon the countenance of this fair lass, one is wont to remark, "How quiet and demure," but that one does not know "Katie," for a person can't imagine the mischief that lurks in her eyes and around the corners of her mouth.

"Katie" is a very conscientious student and would be horrified at the idea of going to class with her lessons unprepared. She is one to whom you might apply the term "an all around girl," for although studying claims many of her hours, she is very fond of a good time and is invariably a hearty participant in social activities on the campus.

After she has finished school "Katie" tells us that she is going to teach for at least a few years. But since changing one's mind is a woman's privilege we will not hold her to this determination.

"Well what the heck"

"Norm"

In the year of 1921 there came to the campus of S. U. a bright, promising young man by the name of Norman Benner. This bright-eyed lad hailed from the little town of Mifflinburg.

It was at once seen that Norman was a student and a musician. He was never once seen idling away his time, but always believed in the old maxim that the more one puts into a thing the more he is going to get out of it. As a musician Norman is very much talented both instrumentally and vocally, he participating in the activities of both the orchestra and the glee club.

But taking all in all, no better lad ever entered the portals of Susquehanna, a man through and through, always willing to serve others, ever trying to lift them higher and higher, with this one great word, service, the keynote of his life.

"Bick" is well known and liked by everyone on the campus, as he never loses his temper and is always ready and willing to lend a helping hand to a classmate in distress. His one outstanding fault is an inclination to be just a little tiresome. Of late, however, he has shown signs of overcoming this fault as his professors have noticed his presence in the classes quite regularly. His chief interest seems to be in his violin and we do not hesitate to prophesy that he will bring honor both to himself and to the class of '25 by means of his musical talent. He has a natural gift for music, and we only hope that he ascends to that worthy place among musicians which he is entitled to share. Until this year his musical talent was supposed to lie only in his ability to play his violin; but now he has furthered his accomplishments by becoming one of the best tenor songsters in Susquehanna's Glee Club.

Isabelle, with her wavy brown tresses and challenging eyes, is very well known by the student body; but especially does she aim her darts at the opposite sex, many men having fallen under the gaze of those dreamy eyes.

As a student she is one who believes that all work and no play makes Isabelle a dull girl, and she stresses this maxim emphatically.

Isabelle, although not an athlete herself, takes a great interest in all class and varsity athletic activities, and she is always seen with the cheering Susquehanna rooters, doing her part in helping her class or alma mater on to victory.

We do not know what Isabelle's future will portray, whether in the domestic line or in the battle of life for herself; but whatever it may be, the class of 1925 wishes her success and happiness in all her undertakings.

We first heard of "Bill" in the fall of 1916 when he entered S. U. as a Freshman. The following year he did not return, for he heard his country's call and joined the Marines. The fall of 1922 found him again in our midst, and we are glad to say, as a member of the class of 1925.

"Bill" is a popular man around school, and is known and remembered by all who meet him. He is, without a doubt, a student, but he is also very fond of athletics. He has attained an envious record as an athlete, being numbered among Susquehanna's best in all the major sports. Outside of his own athletic attainments as a player he has exhibited marked ability in the coaching of various class teams.

That we are proud of this member of our class is putting it mildly. While in school he has played no small part in making our class what it is, and we feel that he will achieve even greater things in later years.

Of course, from the above picture you would naturally guess that she possesses a magnetic attraction for the opposite sex. Yes, strange as it may seem, Helen has been seen once or twice in company with one of the sterner of the species. Before many weeks of her first year had passed, she helped organize that frolicsome, vivacious, and spirited club known as the H. D. E.

Some day Helen expects to teach school but we are quite sure that Fate has other plans in store for her future, as she is very talented along domestic lines and there is no doubt that she will make a very happy home for some Prince Charming.

He is a student, a debater, and above all, a clean-cut Christian gentleman. He attends classes regularly and is never known to have been unprepared in his recitations. The reason for his great persuasive powers in debate lies in the fact that for three years he was a member of the State Legislature. It happened this way.—Just three years ago as we were going out the front entrance we were accosted by a masculine voice asking us to help him carry his trunk to his room. It is needless to say that we helped him, for we were much impressed by this young gentleman, and it was here that a friendship was kindled which has lasted through our college course and will continue through life.

"Newt," for we shall so call him, was quite an athlete from the very start, as he held down a position as half-back and also as end during his first year on the reserve football team. "Newt's" athletics did not stop here, as in reality they just began, for not only in football did he shine, but also in basketball, and most gloriously in baseball did "Our Newt" stand out.

As for social activities, our Young Loch-invar is just as aggressive with the ladies as in athletics.

"Hey, Ernie." "When do we eat?" "Bob." "Bobby"

Witness that man whom some term the natural grouch of the school. "Bob" always seems to find fault with things but he does this only for the sake of hearing matters opened for discussion. Whether he be in the classroom or on the football field, he is possessed with that spirit which can not be overcome. His ability as a student has always been known; but little did we realize how fine a football player he was until the past season. As a tackle on the varsity eleven, he has earned the reputation of a fighter and his opponents were never sorry when the final whistle was heard. His specialty seems to be chemistry, as one can find him in the "lab" when others are calling their day's work complete. One fault can not be passed by and that is his ability to assimilate all food that is put before him. It is little wonder that "Bob" is such an earnest worker as he must find some way in which to rid himself of the excess energy which accumulates as a result of the food which he daily attacks.

"Holy gee."

George, one of Susquehanna's most sincere students, hails from Chapman, whence he came to S. U. to secure a higher education.

He enrolled at S. U. in '20 as a sub-Freshman. In '21 he entered as a Freshman, he completed his first year and was then overtaken by the money craze, but in the fall of '23 George was with us again.

As a student little need to be said of him, for all those who were present in the same classes have sufficient evidence to assure them of his wonderful mental ability. In class he always answers "present."

As to the social affairs of George little is known, for he is not among the student body enough to enable them to analyze his social interests, nevertheless we feel confident that he is interested in some member of the fair sex.

In closing we may say, he has a heart open and welcome to all, and, when the time comes for him to graduate, we will all miss him, and if not him,—his *Ford*, which was used by all students when they wished to go down town in a hurry.

"Excuse me!"

"Bobbie"

It took a lot of persistent effort by the friends of "Bob" to persuade him to leave the parental domicile. His indifference was not due to his apparent disposition toward consistent study; but to a force which had a tendency to restrain him with the bond of true friendship.

The one most conspicuous achievement cultivated through his association with the "Philosophers of the Aristocracy" is the art of imitating these so-called intellectual personages. His unbiased reasoning is done more exclusively for the mere possibility of an argument rather than for proving some discrepancy which may exist.

Overlooking all these omissions of "Bob," as a student we find that he is very sincere. We feel that in his preparation for the ministry all his experiences may be a benefit in that he can authentically discriminate the right from the wrong.

Mabel entered our portals with the class of '26; but after helping them get safely started on their search for knowledge, she joined the class of '25, and let me assure you, dear readers, we felt highly honored to have this fair maiden from Western Pennsylvania in our midst.

She may be thought by some to be quiet and reserved. But do you know her? Have you never heard of her tricks? Oh yes, fun is very essential for Mabel, and she, with her colleagues, forms a trio which is known through Seibert Hall as having more than one trick to their credit. But she knows when to have her fun and is careful not to let it interfere with her studies. Yes, Mabel is studious and always has her lessons prepared. (Economics being her favorite study); but she has a way of her own for doing it, as her light is almost always out at 9.30.

This year Mabel is somewhat lonely. Does she wait for the mail before going to psychology? We cannot understand why; but we may in time.

He came to us from Muhlenberg College, where he was obliged to discontinue his course on account of severe illness. It was not long until his cheery smile and pleasant attitude toward everyone had won for him a host of friends. His ability to adapt himself to all people and all circumstances is unlimited, and what makes it so much greater is the fact that he is utterly unconscious of it. Whenever you find him he is always one of the inner circle of the bunch, being fitted very excellently for the position of cheer leader which he fills so admirably.

Socially "Speed" is an ace. He has the happy faculty of mixing social activities and books in just the right proportion. But as this phase of his life seems to be a mystery, we leave him to your imagination and may good fortune and happiness go with him.

"Smut"

It affords us great pleasure to turn to our friend, Lester De Pester.

Tradition tells us that he was a bright-eyed, freckle-faced boy on his grandfather's farm, but Lester has outgrown all this.

Before coming to Susquehanna he was graduated from Sunbury High School; from there he went into the wilds of Northumberland County and taught the young rural students the modern idea of democracy.

In the fall of 1922 he entered the classic halls of Susquehanna as a Sophomore and immediately acquired a host of friends.

Lester is a home-maker, not a home-breaker. Discussing local scandal is his hobby, but to be sure it is meant for the good of all things. He is a shiek of rare type and by manipulation of the ivories has won many of the fair sex to his harem.

Lester is preparing for the educational world, in which we feel sure he will make good. He keeps himself busy and active, and we can see in his personality the making of a successful voyage when he launches out upon the Sea of Life.

Since then she has taken up her residence in Wapwallopen, thereby showing a peculiar fondness for long and difficult names. So it happens that she studies the Classics with enthusiasm and unwearied zeal. As a matter of fact, she does all her work that way, and she is a very busy person. Never has Susquehanna had a more earnest student or one more loyal.

Do I hear you say independent? Well, though she has never intimated it, we feel sure that some of her ancestors must have signed the famous declaration, for when Anna decides that she is going to do a certain thing, woe unto the one who tries to hinder her.

This scientific gentleman astonishes his many friends with the ease and accuracy with which he accomplishes so much. The intricacies of science do not cause him to even pause. But books are not all to him. He lends himself to many departments of college activity. In addition, he has had, among his manifold duties, the proper nurture of the girls at the Annex. So much done cannot be explained except that he is happily married.

"Abe"

All those who know the real "Abe" will agree that there could never be a better hearted, more serious minded, happy-go-lucky fellow in the world. We find him hard to fathom, for when he is playful he has a kick like a government mule, but when he gets a good, old-fashioned grouch on there is no approach tactful enough.

Although he comes from the coal region, there are none of the characteristics common to that region to be found in "Abe." He is clean, gentlemanly, and always open and above board.

We wish to say that "Abe" is not presumptuous, and does not go into anything for "Abe" alone; but for the good of all concerned. If you should ask about him at S. After intervening years of hardship and untiring study he has reached the exalted position of a Junior.

Though he prides himself on having a mind of his own, necessity causes us to believe that even the most strong become weak when encouraged by some clever lady. It is by his good fellowship in general that he has acquired a place in the hearts of his associates.

One of the most noble features of this life is that of being able to see in the far distant future, perhaps, something big, fine, honorable, some goal which is worthy of achievement and it is the earnest desire of Leon to become a physician.

This dark-haired, brown-eyed maiden hails from a town known as Ardmore. One need only look at her picture to see the impress of its environment, which is written indelibly on every feature. "Frankness and fairness" is her motto, which she carries out daily. She is unusually good-natured and makes many sacrifices for others. She is "heart whole and fancy free," especially so far as her male friends at S. U. are concerned. We rather believe she is reserving her affections for the hope that lies in the future when "face to face" shall no longer be a dream, but a reality.

She is exceedingly interested in her school work and can spend hours at a time reading an educational hook. But she is interested in other things besides books and studies, for she excels the average student in various phases of art, which is manifested in the fact that when anyone needs a poster, he or she knows where to have it made.

There he is! This good-natured, mischievous youth joined us in our Freshman year. Being of an ingenious and inventive mind, lured by the thrills of experiment, "Tubby" at once turned to the Science Course.

"Tubby" is an ardent, willing worker not only in the laboratories of S. U., but is quite willing and ready to give of his time to help others. Nevertheless, he finds time to experiment at home. If, by chance, you will call for him there, you will likely find him building some motor vehicle or repairing an auto or motorcycle. He has become a good mechanic through his experimental failures and successes.

Radio, electricity, and banking are also favorite hobbies of his, so just what he will choose for his life's work seems uncertain.

But, although busily engaged as experimenter, banker, and sportsman, we find him taking an active part in debates, also in literary and church work. He is an ardent track booster, being a member of the track team.

We all must admit that Shaffer is a good student, for many nights we find him burning the midnight oil. He is not only a good student, but a good sport also. It has been to the benefit of the members of the class of '25 that "Gene" has not faltered along the way-side but has remained, thus adding to the standing and prestige of the class.

"Gene" has one fault that stands out prominently, the fault of asking so many questions that cannot be grasped by the members of the class nor at times by the teacher. They are not foolish questions but questions that show that the trend of his mind is toward the goal of education.

He has taken a great delight in sports, obtaining a berth on the track team. He also played half-back on the class football team in his Sophomore year. He is one of the best pole vaulters that S. The young man bearing this noble countenance came to us from the famous old town, "Norrie." Wormley joined the class of '25 in its Freshman year.

Neal is not considered a real woman-hater; but he is conspicuous for his lack of interest in the fair sex, unless, perhaps, there is a silent chapter of interest to be found with his qualitative chemistry laboratory work, but, well, enough said for who knows.

As a student we cannot say too much for him, never does a professor say "Next" if a question is asked of this well informed lad. The mysteries and theories which chemistry holds are especially fascinating to him, and from morning till night you can find him in the chemical laboratory.

As for athletics, well, the material is there sure enough, but with the motto, "Don't exert me, let my brain do the work," you can't wonder that he and "gym" class weren't good friends and consequently didn't get well acquainted.

To know Wormley is to know that he will ably meet the opportunities of life.

"Life is real, life is earnest."

This fair one came into our midst holding a medal and has proven herself capable of winning more. These honors were not won by chance; but by persistent effort.

We do not know of a time that Christie has come to class without having thoroughly mastered the minutest details of the study. If such a thing should happen, she would surely flunk, for her conscience would not permit her to bluff. The only crime she will commit is to skip class when the rest of us do so. Although somewhat backward and perceptibly verdant at first, she has proved herself to be a good, faithful, energetic member of the class of 1925.

New students find in her a kind, considerate friend, one who is always ready to assist them and help allay that dreaded and oft-times fatal disease known as homesickness in college life.

We need not prophesy, but can assure for this modest, sedate member success in all phases of her activities.

Sophomore Class History

IT WAS the twentieth day of September, 1922, a calm peaceful, autumnal day, when the good ship, Susquehanna University, stood at anchor at the wharf of a new school year. It was a gala day and many of the home friends gazed with admiration upon the charming young ladies and dashing young gentlemen as they stepped aboard to set sail in their quest for "Knowledge."

Everyone was naturally very enthusiastic and asked many eager questions of the Captain, and they were assured that if they were persevering and diligent in their duties they would easily reach their destination at the end of four years. So it was with hopeful hearts and smiling faces that they bade their parents and friends farewell.

They were young and socially inclined, so it did not take them long to become acquainted with their fellow-passengers, nor to feel very much at home with the Pilot, the Captain, the Stewardess, and even the Porter. The fears of ship-wreck were entirely swept away in the assurance that so able a staff of seamen had them in their charge.

There were naturally a few cases of sea sickness, and various ones were tempted to throw up college algebra, chemistry, and other disagreeable dishes, and toss some of their best belongings overboard in times of rough sea, but the Stewardess assured them firmly that they would have to consume these indigestibles over and over again until they were perfectly assimilated, and in this they bravely succeeded.

The usual intimacy of shipboard soon sprang up between the voyagers and they have been loyal shipmates ever since. They also became noted for the number and quality of their festive occasions, the like of which none of their contemporaries could boast. It would be too long to read the complete log of their first year's voyage although it would be interesting to tell of the many delightful experiences, the athletic achievements of the passengers, the changes in the passenger list along the way, the partings from this one and the welcoming of that one with the why and wherefore of it all. Thus they sailed over the Freshman sea and received their checks of identification from the Purser almost before they knew.

Already beyond the Freshman sea with such an auspicious beginning everyone felt assured that their voyage would be one of the best ever taken on the good ship, old S. U. The passengers showed great increased skill and ability. They excelled in the tie-up. The young men showed special ability in basketball and football. Not only the men but also the girls proved themselves of good worth carrying off the majority of honors in basketball and in other sports.

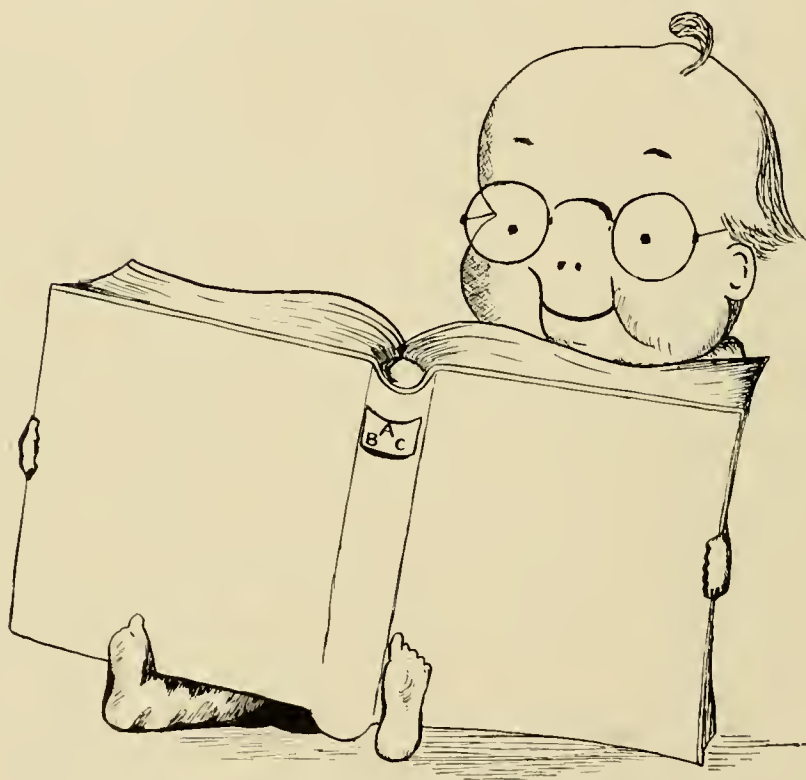

It has been a most wonderful voyage thus far and everyone has accumulated many souvenirs from different ports; striving, however, to guard against the danger of excess baggage, and of taking unto themselves anything which would not be of service on the yet greater "Voyage of Real Life." No one has been wrecked upon the shoals of any threatening task. The tides of each one's average has continued to ebb and flow, the waves of mathematical problems have kept up their ceaseless motion and commotion, the billows of examination questions have sometimes tried their best to overwhelm; but none of these has succeeded.

However, no one must divulge secrets of his shipmates. He must not forget the loyalty due to his class colors flying so valiantly at the mast. The best and most vital history of any person or thing is never given to the world. So must it be with the class of '26.

Freshman Class History

THE dawn of the history of the class of nineteen hundred and twenty-seven was September 1923, when it assembled at S. U. for the first time. Both the faculty and the students soon realized that this was a class of exceptional ability and every effort was made to make things pleasant and agreeable for them. Those who worked hardest in this were the Sophomores, whose particular duty it was to entertain the newcomers. Weird sounds were heard at midnight in the vicinity of graveyards, and conspicuous green dinks and large green bows made their appearance on the campus.

In spite of the rule and vigilance of the Sophomores, the Freshmen held class meetings, electing temporary officers. A party at Rolling Green was planned, but due to action of the faculty it could not be held. Later it was planned to have a banquet at Middleburg, but as it was near Semester Examination Week it was postponed.

Not long after the opening of school the annual Freshman-Sophomore Tie-up occurred. Both sides were evenly matched as to numbers and strength, but on account of previous experience the Sophomores won by a few points. The Freshmen girls lent color to the scene by their costumes and green bows especially designed by the Sophomores.

The class of '27 was not hindered by their strenuous work in the class-rooms from making an exceptionally fine record in athletics, one which has been equalled by no previous class. Twenty Freshman boys went out for football, several playing on the varsity team. The class also had a fine representative team which played against the Sophomores and against several high school teams. In basketball the Freshmen surpassed all other classes by having five men on the varsity squad. The class team, although crippled by losing so many men to the varsity, made a fine showing, winning many of the inter-class games.

The Freshman girls also rank high in athletics, starring in hockey and basketball, and winning the inter-class series in soccer.

By selling rooter-phones at the football games the class raised quite a sum of money which is to be used for purchasing a trophy to be awarded annually to the class winning the Indoor Track Meet. Trophy shields will also be furnished upon which can be inscribed the name and record of the holder of each event. In this way the class wishes to show some of its interest and devotion to Susquehanna.

With such a record in the past and looking forward to the future which will undoubtedly be brighter still, the class of '27 is striving to be the best and most loyal class that has ever entered Susquehanna.

SUMMER SCHOOL

ONE of the greatest assets to any institution of learning is that part of the educational system which is offered during the summer months for the purpose of enriching the minds of those who already are leading others in the paths of knowledge. Susquehanna University is the proud possessor of this valuable asset. Every summer during the month of June students assemble on the campus of Susquehanna for higher learning, and at the present time there are as many enrolled during the summer months as during the regular academic year. Most of these students are teachers, persons who at some previous time have been graduated either from Susquehanna or from some other college or university or perhaps from some normal school. Such a high percentage being teachers themselves, they are more easily taught and know how to work much harder than the regular college student, hence the achievements of the Summer School are very high. Those attending have the highest and noblest ideals one could hope to attain, and with much endurance and perseverance they are sure some day to be able to fulfill their dreams, even though at the present time they may seem but idle fantasies of the mind.

The summer term of school is not only characterized by hard and diligent study, but is also the source of much pleasure and amusement. Many picnics are held throughout the hot, dreamy months of July and August. Picnics, hikes, and parties; who will ever forget the fond moments spent upon these various excursions? Memories never to be forgotten, but those which will grow and become stronger and stronger as one comes to that time in life when locks begin to silver and the sun is seen to set on the western horizon. The Summer School is also represented upon the diamond by a strong and formidable nine. Every man is in the game for the amusement, for the sport which he may be able to receive from it, not a man on the team is a professional, it is amateur athletics throughout, and this is what puts spirit into the organization. Every man playing not for money, but for the school, his dear, beloved Alma Mater. What more could anyone hope for than to play upon a team which does not place money foremost and play second, but one which eliminates money entirely and plays for the good of dear old S. U.

Religion is not absent from the campus during the summer months, rather it is present with a renewed force of enthusiasm. This enthusiasm is shown in each individual's personal character, and is a predominant factor in forming and molding the character of the entire student body.

Fundamentally then, the Summer School is especially characterized by the three points of specialization in Y. M. C. A. work: the body, the mind, and the spirit. Any organization which is physically, mentally, and spiritually equipped is sure to grow, and this is the prophecy of the Susquehanna Summer School, that it will ever grow to be a benefit to the many young men and young women who desire to seek an education.

ACADEMY

PAUL AUMILLER, of Selinsgrove, expects to be a druggist. Even now he comes direct from the drug store every morning and noon.

CRESTON BILLOW, Millersburg, expects to be a minister. Judging from the amount of preaching he does now, there is no doubt.

ROBERT BAIRD comes from Monongahela, Pa., one of the great western cities, with the intention of being an engineer. We wish him success.

(MRS.) LAURA BOYER, Lykens, Pa., has no aim in life except to be a good housekeeper and wife.

LUKE BOGAR, Port Trevorton, tells us he hopes some day to be the head "Dr." of some big hospital. Great opportunities lie before him.

HARDMAN CONRAD comes from Sunbury and hopes some day to be an undertaker.

HAROLD DOEBLER, more commonly known as "Hod," comes to us from the "Hills of Lycoming County." He expects some day to be a minister in his home town, Williamsport.

WILLFORD GROCE, Selinsgrove, expects some day to be a business man.

PAUL GARMAN, of Richfield, has chosen teaching as his life's work. He may even some day be a professor at Yale or Harvard—who knows!

It is hardly necessary to tell you that LESTER HAMM, of Hanover, Pa., is going to be a musician as his very appearance is that of one. Look out, Rachmanioff!

HAROLD HARDER, Danville, Pa., has chosen the ministry as his life's work, and we feel sure of his success.

OREN KALTRITER comes to us from Mount Pleasant Mills, Pa. Although he is not certain as to what he will do in the future, we feel sure he will some day be a great mathematician.

BETTY KAUFMAN, Davidsville, thinks she will some day be a teacher.

JEROME KAUFMAN, of Davidsville, is the smallest yet the most active of the Academy. He intends to answer his call gallantly and go out into the world as a minister. Here's for competition to Billy Sunday.

HAROLD MOLDENKE comes to us from Plainfield, N.J., and tells us he is going to make a study of birds.

THOMAS B. SEVISON is from Hughesville. He came to Susquehanna with the desire for an education.

LAWRENCE SNYDER, Selinsgrove, expects some day to be an educated man.

ROLAND SWARTZWELDER, of Elk Lick, Pa., tells us he wants to become an M. D.?? Mule Driver.

WILLIAM SCHWIRIAN, of the "Smoky City," is going to be a minister, most of us have heard him preach and we feel sure he will be among the greatest of ministers.

WARREN SNYDER, another Port Trevorton youth, thinks he will some time in the future be a minister. We hope he keeps on thinking along this line.

HENRY UMBERGER, the "Ladykiller" from Central City, Pa., intends to be a minister. Oh! a congregation of women.

DORIS YODER, of Belleville, thinks that some day she will become one of the greatest stars at Hollywood.

CHARLES SNYDER, Sunbury, has chosen teaching as his life's work.

THE ORANGE AND MAROON

The story we would tell you, friends,
Would cover many a book;
The subject matter of the same
Is found in every nook
Of old S. U.'s broad campus,
The common battle ground,
Whose trees might whisper secrets grave,
Amusing and profound.

Chorus

Of Susquehanna now we sing,
Let Susquehanna's praises ring,
Loyal to her by night and by noon,
We'll raise the Orange and Maroon.
Loyal to her by night and by noon,
We'll raise the Orange and Maroon.

How dear to one and all the name
Their Alma Mater bears,
When they have left its classic halls
To shoulder worldly cares.
O winning maids and noble lords
Of dear old college days,
Come join in recollections fond,
And tell us of your ways.

In class room and on gridiron, friends,
S. U. will stand the test;
Defeat to her a word unknown,
Her motto, "Do your best,"
With vim, then let us give the yell,
Display her banner bright,
That all may know of old S. U.
She stands for God and Right.

Review of 1923 Football Season

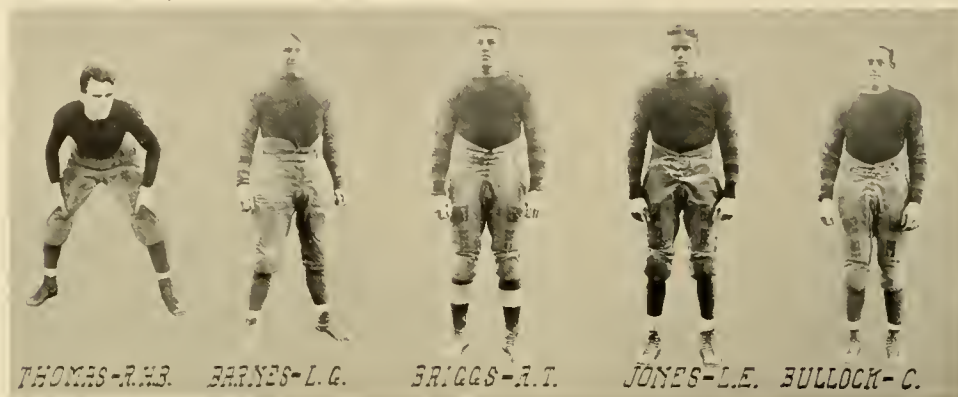

THE past football season will long be remembered by all who were favored with the opportunity of watching Susquehanna's gridiron team in action. The fighting spirit of the players was developed to a higher pitch than displayed by any S. U. team of recent years. The men were all playing to win and to bring glory to Susquehanna. In victory and defeat alike, the Susquehanna boys always fought all the way. If only the games won are considered then the past season could not be termed real success but when it is considered from all angles, one can feel justly proud. The first three games were lost after a game exhibition on Susquehanna's part. A winning streak of three games followed and it brought out the true ability of the team. After the third consecutive victory, an overwhelming number of injuries forced several of the leading players to the sidelines. There could be only one inevitable result after such misfortune, and that was that the final three games were lost after remarkable resistance had been put forth by Susquehanna's crippled but valiant fighting eleven. It seemed as though the bigger the task to be met the more willing and anxious the boys were to come in contact with it.

Susquehanna 0 The season opened on October 6, at Ithaca, N. Y.,
Cornell 84 where the Susquehanna team encountered the big Red Eleven, made famous by the wonderful coaching of "Gil Dobie."

For the past two years Cornell has swept through the East with an unspotted record and has been proclaimed the Mythical Collegiate Champion. Susquehanna went against this powerful crew with all confidence and with the determination to make a good showing. In the first half many of Susquehanna's men were forced from the game, with the result that Dobie's team scored 56 points. In the third quarter Susquehanna showed remarkable strength and held "Eddie" Pfann and his mates to a lone touchdown. In the final quarter, Cornell added three after Susquehanna had become physically exhausted.

Susquehanna 0 The second game of the season found the team meeting
Bucknell 51 Bucknell, Susquehanna's traditional rival, over whom victory is always relished. A large crowd of loyal followers traveled to Lewisburg to watch Susquehanna's boys test their strength with that of their powerful neighbor. The first half of the game was splendid to watch by the Susquehanna

rooters, as Bucknell could cross the goal line only twice, being held by the determined resistance of Susquehanna. The bitter first half struggle left the Susquehanna team physically weakened, with the result that Bucknell scored several times before the close of the game.

Susquehanna 0 If ever a Susquehanna football team looked like champions in defeat, they looked and acted the part when they met Swarthmore in the third game of the season. Swarthmore, the week previous, had held the great Penn team to a 13-10 score and the result was that everybody was offering sympathy to the Susquehanna "grid" team. But this sympathy was useless, as Susquehanna went into the fray and showed Swarthmore that she was meeting a foeman worthy of her mettle. After sixty minutes of the most intense football ever seen on the local field, Susquehanna bowed to a glorious defeat. The visiting quarterback, Dotterer, saved the day for his team by kicking three field goals with his educated toe. The home team gained twice as much ground by scrimmage as did Swarthmore but several unfortunate breaks prevented Susquehanna from winning.

Susquehanna 6 The first taste of victory came when the team journeyed to Chester and defeated the Pennsylvania Military College in a bitterly fought game. The Cadets were anticipating a victory but shortly after the opening whistle sounded, it was evident that Susquehanna was determined to finish on the long end of the score. She repeated her fine playing of the week previous with the result that P. M. C. never had a chance to win. Susquehanna scored one touchdown and was robbed of more by several costly fumbles. Susquehanna's line tackled ferociously and soon stopped the attack of the Cadets, while the backs took the ball up the field, making many first downs. P. M. C. resorted to an aerial attack late in the game but this method also was useless, as S. U. could not be stopped.

Susquehanna 5 The following week the team traveled to Huntingdon to face the strongest team that Juniata has ever had to represent her on the gridiron. Although her team was strong, the Susquehanna boys had enjoyed their victory of the previous week and were determined to have another taste of it at the expense of the home team. The defense of both teams was so tight that Susquehanna had to content herself with a three point lead at half time, Captain Rogowicz having successfully kicked a field goal. At the start of the second half Susquehanna added two points to her total when several men broke through Juniata's defense and threw Gulock, the fullback, behind his own goal line. The final whistle saved Juniata from a worse defeat, as the ball

was in Susquehanna's possession less than one foot from the goal line when the game ended.

Susquehanna 25
Temple 7 On Saturday, November 10th, the second Annual Alumni Day was held and it brought back many of the "old grads" who were desirous of seeing a real Susquehanna football team in action. They had read of the great accomplishments so they came to see for themselves whether the boys composed a typical Susquehanna football machine. When Susquehanna took the field against Temple University the returned alumni were proud to notice that the men took their positions with eagerness, awaiting the whistle which would loose them to action. As soon as Susquehanna received the ball she marched straight down the field and scored a touchdown. A minute later Briggs intercepted a forward pass and ran for the second touchdown. Before the game was over Susquehanna had scored four touchdowns while Temple scored one, completely fooling the Susquehanna men by working a fake play. The visitors' forward passing attack was the best seen all season but they could gain nothing by scrimmage. At the close of the game the Susquehanna Alumni returned to their homes proud to know that S. U. had a team of which she need to have no hesitancy in upholding.

Susquehanna 0
Albright 6 During the week following the Temple game, several of Susquehanna's men were injured so severely that they were unable to take part in the fray against Albright on the following Saturday. It seems as though Albright has always been a jinx to Susquehanna and this year proved no exception. When Susquehanna took the field only four men were in their accustomed positions, the remainder being injured or filling unfamiliar places on the team. In spite of these handicaps Susquehanna fought Benfer's team to a standstill throughout the game. An unfortunate break permitted Albright to win when Gasull, their diminutive quarterback, returned a punt fifty yards for a touchdown. After this score the home team doubled its efforts with the result that S. U. was forced to bow to defeat after having won three consecutive victories.

Susquehanna 14
Lebanon Valley 22 The final home game of the year was eagerly awaited by all because it meant that Susquehanna was to meet her great rival, Lebanon Valley, in a game which would decide the football supremacy of the year. Both elevens were confident of victory as they were placing their strongest teams on the field. When, at the start of the game, Susquehanna received the kick-off and marched straight down the field in a drive which terminated in a touchdown, there were none to be found who would concede the visitors a chance. But Lebanon Valley fought hard and was determined to keep the

S. U. eleven from running wild. Susquehanna's eleven played with hard luck throughout the first half but were leading 19-15 at the time of intermission. Susquehanna came back hard in the second half and played the Annville men off their feet. With two minutes to go Susquehanna took the ball to the very shadow of the opponent's goal posts. It looked like a sure touchdown and certain victory for the home team, as Lebanon Valley was leading by only a two point margin. But at this time fate gave a cruel twist and S. U. fumbled the ball only to have the eager visitors recover it. There was no time left for Susquehanna to score and becoming discouraged, they left Lebanon Valley score a touchdown on a forward pass over the goal line. This game was a hard one to lose, as it seemed to all as though Susquehanna should have been victorious.

Susquehanna 6 The football season closed on Thanksgiving Day when
Ursinus 17 Susquehanna journeyed to Collegeville to meet Ursinus in their feature home game of the year. Injuries compelled Bannon, Susquehanna's star punter, and Jones, a reliable end, to remain at home. The game was hard fought throughout with neither team conceding ground without fighting for it. Neither team scored in the first quarter but in the second quarter Ursinus maneuvered through Susquehanna's defense and scored ten points. Instead of letting up in the second half, Susquehanna showed her greatest comeback of the year and sent fear into the hearts of the Ursinus people. Shortly after the start of the half Susquehanna received the ball and carried it straight down the gridiron and across the home team's goal line. From then on the battle waxed furious and the game ended with the home team leading by a narrow margin. The season ended just as it had begun—with Susquehanna's eleven fighting hard to bring credit to the institution which she represents.

Much credit for the success of the past season must go to Coach Mitterling and to his assistant, Prof. Follmer, as they worked untiringly to produce the scrappiest team that Susquehanna can boast of in past years. The team met with several reverses during the past season but every man worked hard to bring honor and glory to Susquehanna and the results speak for themselves.

Prospects for a great season in 1924 are very bright as the only men lost by graduation are Captain Rogowicz and Keebler. Their loss will be felt but it is hoped that the men, at present in school along with some new men, will be able to fill the few gaps in the ranks. Hayes Gordon has been elected captain for the coming year and it is hoped that he may prove a worthy successor to "Rogie."

Review of 1924 Basketball Season

THE season opened with a two day trip to Juniata and Penn State. Susquehanna was looking for a victory in the opening game, but the cagemen of Huntingdon proved to be real opponents and she was defeated in a close and exciting contest, 22-18. On the following day Susquehanna met the Nittany Lions with the determination to make a creditable showing. For the first five minutes neither team scored but at this time Susquehanna's defense failed and no offense was thrust at the State basket. The result was that before the first half had ended the Lions had scored 38 points. Coach Follmer told the boys a few things between halves and they came upon the floor in the second period with renewed life. The Nittany mentor started his second string men in this period but when he took note that Susquehanna was outscoring them he immediately rushed his varsity back into the fray, and they remained until the final gun was heard. With five minutes to go, State had rolled up 58 points and the crowd was begging them to make it 60. But at this juncture Susquehanna showed her fighting spirit which never dies, and their fighting was not in vain as their famed opponents could not add a solitary point to their total. Susquehanna's great finish partly atoned for her poor work at the beginning of the game.

Juniata, the first opponent in the home games, was defeated 31-24. The next opponent was Albright. In this game, poor officiating cost Susquehanna a victory. Albright started out strong and assumed an early lead but Susquehanna came back and tied the score, then the whistle blew. Everyone was under the impression that an extra five minute period was being played but as soon as Albright caged a foul after one minute of play the whistle blew. The timekeepers stated that the official time had not been up, and that the visitors had won, 27-26. The following week Gettysburg, fresh from outplaying Penn State, came to Selinsgrove to administer a defeat to Susquehanna but were very much surprised when S. U. emerged one point ahead. At half time Gettysburg was in the lead but toward the close Susquehanna rallied and came out ahead, 35-34. Spectators went wild and declared that this was the best game ever played in the Alumni Gymnasium. Next, Schuylkill made her initial appearance in Selinsgrove, and although she was strong enough to lead the home team for three quarters of the game, the final "punch" enabled Susquehanna to win once more by the score of 29-22. The second trip of the season started with Schuylkill at Reading. There was plenty of scoring on both sides but Susquehanna eventually was forced to accept a 44-36 defeat. Ursinus provided an upset when they defeated Susquehanna 33-29. At the start of the game they got the jump and were leading 25-13 at half time, but in the second half Susquehanna came to life and outscored them 16-8. The final game of the eastern trip was played with Temple. Susquehanna lead for a time but Temple secured a well earned victory, 29-16. Temple was again met in a return game in the Alumni Gymnasium which was a Susquehanna victory, 36-27. In the last trip of the season the opponents were Lebanon Valley, Albright, and Gettysburg. Although Susquehanna was defeated in all three games, a very creditable showing was made. The final game of the season came when an old rival, Lebanon Valley, was met in the Alumni Gymnasium. They had defeated S. U. so decisively at Lebanon that a victory seemed out of the question. But the spectators had seen Susquehanna do the seemingly impossible at other times and were confident that she could do it again. The team responded nobly and ended the season in a blaze of glory by winning the game, 29-23. The visitors were leading at half time, but as usual Susquehanna had the strength to stage a comeback.

Prospects for next season are very bright as there will be eight men remaining out of the nine which were on the varsity squad this year. "Rogie" is the only man lost, he is certain to be missed as Susquehanna has never boasted of a better athlete. But with the available material, the coming year should be even more successful than the past.

Review of 1923 Baseball Season

ONE of the most successful seasons enjoyed by Susquehanna was last spring when the baseball team was successful in defeating all but three of her vast number of opponents. The schedule was a very strenuous one but Susquehanna proved equal to the task. The only rivals who were successful in lowering the Orange and Maroon were Penn State, Gettysburg, and Bucknell.

The season began just after the Easter vacation. The first games were played on a two-day trip, with Penn State and Juniata. In the opening game Juniata was met on a muddy field and was defeated by the score of 13-12. In this game "Stew" Bannon made his varsity pitching debut. The following day came the ne'er to be forgotten game with State College. Although the final score was two runs to one in favor of State College, S. U. can be proud of her accomplishments against her famed opponents. Susquehanna outhit them nine to five, and her defense was practically impenetrable. "Cracker" Clark won fame for himself by his wonderful exhibition of mound work.

Four home games were next on the schedule, the first one being with Juniata, who was met in the first athletic contest ever held on Aikens Field. A ninth inning rally provided the necessary runs for a Susquehanna victory.

The following week found Gettysburg as the opponent. In this game Susquehanna had her bad day of the season.

May Day was celebrated in an auspicious manner when Haverford came, saw, and was conquered. A very large and enthusiastic crowd witnessed this game.

The final game of the first home series was with Bloomsburg Normal, and the prep school boys made the varsity hustle to win.

The second trip was the hardest of the season, as both Franklin and Marshall and Gettysburg were met. F. and M. had lost her opening game to U. of P., 3-2, but had been victorious on eight consecutive occasions prior to her contest with Susquehanna. S. U. took the lead at the start and easily defeated the great F. and M. team, 6-2.

The following day Susquehanna determined to avenge her early defeat at Gettysburg's hands, but she was again defeated.

The next games were with old rivals, Albright and Lebanon Valley. They afforded Susquehanna much opposition but the games were won.

The "games of games" were those with Bucknell. Susquehanna was determined to wind up a great season with victories over her traditional rival, but alas, for her hopes, she was defeated in both games.

The A'umni game proved unusually attractive, as such stars as "Red" Swope, Sweely, Follmer, Cassler, Smith, Ryden, Stetler, Sigler, and Groninger were seen in action. A pick-up varsity team managed to triumph over the "old grads."

The team was successfully coached by "Pat" Emerick, nine games being won out of fourteen played. Prospects for the coming season are unusually bright as only Emerick and Sweeney were lost by graduation.

Track Review

AFTER a lapse of several years, track athletics were resumed last spring when Susquehanna placed a varsity team on the field. A full supply of equipment was obtained and a worthy team selected from a limited amount of material. The team was coached by Prof. Grossman, who developed a well balanced squad before the season had closed. Although Susquehanna was not victorious in any of the track meets, she made a creditable showing in the Penn Relays. She was soundly defeated by Haverford, but came back and gave Juniata a score. Not one of last year's aggregation is lost to the team this year, and since the present Freshman class boasts of much track material there is no reason why Susquehanna should not lead many rivals in competition this spring. An added feature of the sport is that several meets will be held on the home field.

Tennis Review

ONE of the sports which took a big boon on the campus last spring was tennis. From the outset tennis enthusiasm ran high, and when the first meet with Montgomery A. C. took place a large crowd was on hand to witness the contest. The result was that Susquehanna gave the independent stars a real battle and earned a draw as her reward. Later, matches were lost to Gettysburg, Juniata, and Lebanon Valley, but the Susquehanna team acquitted itself nobly. The team was coached by "Charley" Stong, former varsity star, who is now in the Theological Department. He developed a fine team from new material, and the result of his labors will show this spring. As a nucleus for the team he has Jones and H. Stong. Both are very reliable and should prove consistent players.

ORGANIZATIONS

ONE finds that as he comes to college and enters into his work that not all of college life is found in books. There are many things to be learned through common experience, through that experience which is derived from extra-curricular activities. These extra-curricular activities consist chiefly of the various organizations upon the campus.

Susquehanna is an institution of organizations and she can well be proud of them. They afford to the student that invaluable characteristic of sociability, that which cannot be acquired by simply book knowledge itself. In participating and leading these organizations the student is brought face to face with some of the more important problems which he will be forced to face in later life. Take the Y. M. C. A. and the Y. W. C. A.; the World Fellowship Club; the literary societies, both Clio and Philo; and the different clubs such as the Debating Club and the Dramatic Club, which teach one the art of public expression; all these organizations help one to be better fitted for his position in life. One does not need to participate in every organization, but naturally he only joins that one in which he is most interested, that one from which he thinks that he will receive the most good for the efforts which he puts into it.

The religious organizations alone are worthwhile on the campus of any institution of learning. One of the greatest requisites of a man's life is the development of his spiritual nature. From the colleges and universities of the land must come a great part of the leaders in whose hand will be the task of shaping the destiny of the world. Where will these leaders receive their training? From the religious organizations with which they have been affiliated while on the campus, that is the only source of true leadership. In order that these leaders may fulfill their task justly in the sight of God and man they must have high and elevating ideals. These ideals will come only from the opportunities and advantages which are offered by the religious organizations, their aim being to lead students to a true knowledge of God through the love of Jesus Christ. These organizations can accomplish the most, only by the earnest and faithful workers within, and as each one takes an active interest in the different organizations on Susquehanna's campus, then and then only will he derive the full benefit of his college education.

LITERARY SOCIETIES

ON the campus of every college or university one will find those organizations which are for the purpose of helping one to better express himself in the eyes of the public. At Susquehanna the chief organizations which have to do with this interest are the Clionian and the Philosophian Literary Societies.

These literary societies are of invaluable aid to every student. He may not think so now but after he is graduated and begins to do things for himself he will then look back upon his college days and wish that he had taken more of an active interest in these two organizations which mean so much to every man and woman. The Alumni who are now out come back to us and they are not here long until they begin to tell of the keen, friendly rivalry which once existed between the two societies, and of the great experience in literary work and in the mode of expression which they acquired through participation in the activities of the societies. One never realizes what he has until he has lost the opportunity, just so with the literary societies. They are here for the benefit of every student on the campus. Are they used? No. Will this fact ever be the cause of regret on the part of any individual? Unfortunately it will be. The time will come when those who at present are enjoying their college days will regret with very great sadness these golden opportunities which are now knocking but which are unable to gain entrance. Why should not these opportunities which lie within one's reach be grasped and utilized? If a person wishes to make a creditable success in life, regardless of vocation, he is in very great need of the training which the literary societies offer. The question might be asked, what is this training? It is training for leadership, training for thinking for one'sself, training in the doing of things correctly, and all of this training is a requisite to the life of every man or woman. The college graduate will be he who will shape the future and for this reason he should be trained. The literary societies train men and women, why should not everyone be an earnest worker in the societies? Let every student on the campus of Susquehanna affiliate himself with one or the other of the two societies and then work diligently to help build up the true literary spirit.

Davis obeying a 10.30 dorm rule.
Moldenke not ringing the Y. M. C. A. bell.
The “Profs” calling on someone who knows his lesson.
“Izzy” Bolig reciting.
Adams not sleeping in class.
Grove not arguing with the “Profs.”
Freshmen obeying rules.

You can always tell a Senior,
He is so sedately dressed.
You can always tell a Junior
By the way he swells his chest.

You can always tell a Sophomore
By his important airs and such.
You can always tell a Freshman,
But you cannot tell him much.

Steffen in Chemistry class—Dr. Fisher, I don't understand this. If H_2O equals the formula for water, why doesn't H_2OK_9 equal water-dog?

A hug—Energy gone to waist.

A vacuum—The space between Freshman's ears.

“Marv”—Father, I have dropped Latin and taken up Astronomy.

Mr. Klick—Astronomy, what is that?

“Marv”—Oh, that's a study of the moon and stars.

Mr. Klick—Uh, huh, I see; another excuse for staying out late at night.

Haec in Gallia est importantus.

(A Freshman's translation)—Hike into Gaul, it is important.

JOKES

An Irishman recently laid up in the hospital by a railroad accident, was surprised when his mother inquired one day, "Pat, are you going to ask for damages?"

"Damages," cried the amazed Pat, "Faith, mother, 'tis not damages I want, but repairs."

A Law in Physics

The deportment of the pupil varies inversely as the square of the distance from the teacher's desk.

Dr. Woodruff—How did Sidney happen to be the first of romantic poets?

Elizabeth Bloom—Because he was in love.

"Spig"—How can you tell the difference between luke warm and warm?

Koch—"It's a little 'luker.'"

Where?

Where can a man buy a cap for his knee,
Or a key for a lock of his hair?
Can his eyes be called an academy
Because there are pupils there?
In the crowns of his teeth what gems are found—
Who travels the bridge of his nose?
Can he use when shingling the roof of his mouth,
The nails on the ends of his toes?
Can the crook of his elbow be sent to jail?
If so, what did it do?
How does he sharpen his shoulder blades?
I'll be hanged if I know. Do you?

Sophomore—What are the three most common words in college?

Freshman—I don't know.

Sophomore—You guessed them, exactly.

Drumm—If one pair of bellows cost two dollars and seventy-two and three-quarter cents, what will three pair of bellows come to?

Nipple—I'm not good at figures, and I don't care anyhow.

Drumm—Oh well! I'll tell you, they will come to blows.

As of Old

Fond Mother—Bobbie, come here, I have something very nice to tell you.

Bobbie—Aw, I don't care. I know what it is. Big brother's home from college.

Fond Mother—Why Bobbie, how could you guess?

Bobbie—My hank doesn't rattle any more.

Natural Enough

"Stew" Bannon—Barber, why did you drop that steaming towel on my face?

Barber—Because it was too hot to hold, sir.

Lanthorn Photographer (taking plain looking girl)—Now try not to think of yourself at all, think of something pleasant.

CALENDAR

FEBRUARY, 1923

February 1. The statisticians will let you hear of S. U.'s happenings far and near. The Glee Club at Phillipsburg. Some "dumb-bell" forgot the films; Baer in a flurry. At S. U. the Junior Debating Club functions.

February 2. Glee Club arrived in Altoona without casualties. Girls excited. First love letters from the Club. Double basketball victory—Reserves vs. Nor'y Hi and Varsity vs. Lebanon Valley.

February 3. Seibert Hall Orchestra gives a free concert on the third floor, usual time, usual place. Duppsstadt and Fopeano ride to station in the splendor of a milk truck. Those Glee Club boys!

February 4. A certain girl falls asleep in church. The Glee Club is at Meyersdale! All kinds of welcomes there awaiting the boys.

February 5. Vera advertises Social Hour. Miss Cole puts the "kybosh" on it. Big day for Glee Club! They enjoy the hospitality of the Meyersdale girls. Ask no more questions. They won't tell anyway.

February 6. Harvey Erb hates to leave Meyersdale. He bids fond farewell to—(?). Seibert Hall has a new organization—the "Good Club."

February 7. Lucy and Lillian fail to receive Glee Club mail. War declared! Brown and Anna L. hold seats of honor in class. (Klingman jealous.)

February 8. Glee Club at Johnstown. Consult Constable for further information. Mysterious party in "Peg" Heldt's room. Some one swears in German. Schwirian represents S. U. at the Student Volunteer Conference, Drew Theological Seminary.

February 9. Pittsburgh is honored by a visit of the Glee Club. Aham! 'Nuf sed! Miss Cole and several girls attend birthday party for Tice. Lillian, Catherine, and Adeline have dinner with Mrs. Bowser. Inter-class basketball games.

February 10. Some Glee Club fellow runs off with Sutton's girl. Such nerve! Seibert Hall parade to the movies. Rather slim crowd.

February 11. Sara and Harland go to Sunday School at Penn Avon. Refuse to have "snaps" taken. Streamer, Faust, and Swisher journey to Kreamer. (Postum!)

February 12. Davis meets Club at Altoona station with his last night's reason. Three silent cheers and a groan for "Carpy," Groce, et al. Club at Jersey Shore—While at S. U. all await their return.

February 13. Glee Club returns! Some happy, others sad. Social Hour for the occasion.

February 14. Co-Sorority Valentine Party in Seibert Hall. Many hearts left hanging in the balance. Bouquets 'n everything.

February 15. Junior Debating Club. "Sammy" Allison gets "fussed." Lively meeting!

February 16. Sophomores beat Juniors (15-12). Exciting game.

February 17. "Dubby" and "Keeb" attend wrestle at Sunbury.

February 18. "Peg" H. forgets she is under restrictions. Leaves suddenly for Paxtonville.

February 19. General Azagapatian spoke in chapel. Birthday party is held for Mr. Horton and Justina. Alpha Sigma Omega hold mid-year party.

February 20. Election of Lanthorn Staff, Harland Fague, Editor-in-Chief; Ellsworth Grove, Business Manager. Senior-Frosh basketball game.

February 21. Keller invades the third floor of Seibert Hall. Great consternation! Another mysterious party in Room 31. Birthday party for "Peg" Widlund.

February 22. Varsity basketball team leaves for three-day trip. D. A. R. contest. Dorothy Margerum wins first prize.

February 23. Joint meeting of Philo and Clio Literary Societies. Fine program. The "Preachers" beat "Pick-ups" in basketball game.

February 24. First Co-ed basketball game. Frosh beat Sophs just as the whistle blows. "Peg" and Adeline receiving "strong" gifts.

February 25. Day of Prayer for Colleges. Dr. Sadtler, Dr. Focht, and Dr. Woodruff speak in Trinity Lutheran Church.

February 26. Some people hold hands in Social Hour. Catherine and Miss La Quay enjoy onion sandwiches.

February 27. Joint Y. M. and Y. W. meeting addressed by Mr. North. S. U.-Bucknell basketball game. Some fight. A. S. O. smoker for visiting team.

February 28. Third floor "Jelly-Bean Throwers" of Seibert Hall cause a catastrophe by wrecking a perfectly good, honest Chem. notebook. Klingman fails to debate.

MARCH, 1923

March 1. Inter-class game between Juniors and Seniors. Glee Club leaves for another concert. The Faculty request Frosh and Sophs to pay class dues.

March 2. "Filo Fems" perform in all their splendor. Rebecca proves that fat men do not make good husbands. Ruth Bond claims they may be "humbugs" but not "bum-hugs"! (Now how does she know?)

March 3. S. U. Varsity basketball team defeats U. of P. Junior Varsity in an exciting game.

March 4. Preliminary course in "Campustry" begins. "Dave" Dagle falls! (In the mud.) "Peg" goes to church alone. Sands speaks at Penn Avon services.

March 5. Dr. Vaughn, of Boston University, lectures on "American Ideals." Mrs. Kimble says "Party is over" instead of "Good-night, boys"!

March 6. Theologs defeat Sophomore basketball team. "Bill" Janson's baseball suit must have some lucky charm.

March 7. Sophomore girls beat Freshmen 21-9. Sara Seal "goes for" "Louie" Leshner and he falls hard! "Fett" takes campus. Another one gone——

March 8. Glee Club concert at Selinsgrove. Sutton is presented with bouquet of celery. Several couples take the advice of the Glee Club and chaperon themselves.

JOKES

Dr. Fisher—What are the effects of heat and cold?

Wormley—Heat expands and cold contracts.

Dr. Fisher—Give examples.

Wormley—In summer the days are long, in winter very short.

Wanted—A piano by a man with carved legs and mahogany finish.

Is this Mr. White?

Yes.

We have a package of books for you, Mr. White, and we wish that you would arrange to get them at once, as they are leaking badly.

Caller—Is your daughter an equestrienne?

Proud Mother—Either that or valedictorian. These class officers are so confusing you know.

Miss Woodruff—Name the two most important parts of a sentence.

Baird—The beginning and the end.

The Editor's Wail

"What do you get for all this work,"

I was asked the other day.

"Oh, nothing at all but thanks," I said,

"Our glory is our pay."

And straight way 'round the corner came

Some classmates on the run,

And advancing toward my helpless self,

Said, "Ge, this issue's bum."

We All Say So

Perhaps these jokes are old

And should be on the shelf;

If you can do it better

Send in a few yourself.

Charles T. Aikens, D.D., President

The Theological Seminary.—A very excellent course of three years is offered as graduate work, leading to the degree of B. D.

The College of Liberal Arts.—Two Groups of Courses are offered in this Department, as follows: The Liberal Group of three courses and The Science Group of four courses, giving the student the opportunity of taking the following courses:—Classical, Education, Social Science, Business Administration, General Science, Pre-medical, Agriculture and Forestry.

The Conservatory of Music.—Our Department of Music is under a most competent Director, with splendid assistants and offers a thorough education in theoretical and practical music. The most improved methods of instruction are used, in the direction of the highest degree of artistic development in musical culture.

The School of Oratory.—This department is under the direction of a special elocutionist and offers a regular course, leading to graduation.

The School of Business.—A special course in Business Administration leading to the baccalaureate degree, has been arranged for those who wish to combine, in a four years' course, the cultural subjects of the Liberal Arts Course and the regular course in business. A short course in Business is also offered.

A Summer School.—Eight weeks of summer school opens on June 23rd, to all who wish to qualify themselves for better service in our Public Schools or work off college conditions. The regular college faculty do the teaching of the summer school, so that it gives a splendid opportunity to those who desire advanced credits.

The Boarding Department.—All residents are expected to board in the Dining Hall, which is conducted for the accommodation of those who come to live with us. The board and service are good and prices reasonable.

Susquehanna is beautifully located and the surrounding physical conditions are healthful and almost ideal. Splendid new dormitories with modern conveniences and new athletic field, with running track and straight away about completed.

"Jahn & Ollier Again"

ACHIEVEMENT

The goal of every ambitious man and firm is typified in the rapid growth of the Jahn & Ollier Engraving Company—the universal esteem in which their art and plates are held by the large national advertisers—and the enviable reputation for prompt deliveries which they enjoy.

Delivering this same high quality and careful personal supervision to schools has built up for us the largest college and high school annual engraving business in America—400 books yearly.

Thirty thousand square feet of floor space (4 floors) and over two hundred and fifty skilled employees are required to meet the constant demand for "J&O" commercial photographs, art, color process plates and photo engraving (one complete floor is devoted to color process work).

Intelligent supervision of all work by many skillful office service men eliminates your troubles. Sales service men sent everywhere.

AUTOGRAPHS

*"Strange! how aimless looks or words sometimes wake
forgotten chords,—bidding dreams and memories leap from
a long unbroken sleep."—Lecky.*

AUTOGRAPHS

"The joys I have possessed are ever mine; out of thy reach, behind eternity, hid in the sacred treasure of the past, but blest remembrance brings them hourly back."—Dryden.

AUTOGRAPHS

"Remembrances last longer than present realities; I have preserved blossoms for many years, but never fruits."
—Richter.

AUTOGRAPHS

"Lulled in the countless chambers of the brain, our thoughts are linked by many a hidden chain; awake but one, and lo, what myriads rise!"—Pope.
